

Our food sales have increase 300% by using Tomlinson Design & Advertising to redo our menus. We love the design and still get compliments from customers and it has been over 3 years.

I have utilized Lori Tomlinson's services since 1992 – 17 years. While she has been a wonderful source for creative work on marketing ideas that range from in-store posters to scheduling and creating electronic marketing programs, I have mostly enjoyed her commitment, energy and wealth of knowledge that she injects into all of the projects that we have done over the years. Lori has also impressed with her ability to network and stay current with today's ever changing strategies to reach and communicate messages to our customers.

I was new to marketing my business and not a little wary in general. Lori was professional, enthusiastic, exceptionally talented and affordable. I love the things she has designed for me and they are greatly helping my business plan. In my opinion, you cannot do better.

Lori is a creative and inventive designer. Lori created one of a kind Chazzano Coffee cupping forms for my cafe as well as a custom made tasting wheel. When you give a creative project to Lori, you will receive a brilliant and unique result. I highly recommend Lori for your graphic designs. Of all of the work that Lori has created for my business, I am thrilled about my business cards. They are absolutely brilliant.

Just to let you know, I just received a phone call from someone "Down River" who saw our ad in the Michigan Gardener and loved it... she was especially interested in the Josie piece she saw in it. Thanks!
